

Year 5 Christmas Homework

Homework for the Christmas holiday is a science homework. All classes are exploring scientific questions which have been created by the children. Our question is:

What are planets made of?

Your task is to research one or more planets and you could produce

a:

- fact poster (on one or all planets)
- 3d model with facts
- PowerPoint with facts
- Or any other way you choose to show your research

This homework needs to be returned on the first day back in school after the holidays as we will be showing our work to parents and other classes on the first Friday back, as this will be Science STEM week for the whole school.

I look forward to seeing your work!

Have a great Christmas!

Mrs Whalley
